Heidelberg, October 30, 1900

Dr. Bredig

Leipzig, Physical Chemistry Institute

Dear Sir,

At the convention for the Electrochemical Society in Zurich, I asked you to send an ampere nanometer of your construction for 0.1 to 4 amperes to the Physics Institute at the University of Heidelberg. In the meantime, Mr. Segerhoff sent me his catalogue again, in which the instrument is listed. May I ask you to choose an instrument for me there and have it sent to me?

Best regards.

Sincerely,

G. Quincke
