Dear Hans,

Attached is a copy of my father's letter, which was sent together with mail addressed to Dr. Johnson. I very much hope that the relief campaign will be successful.

Is Dr. J.W.M DuMond from Pasadena, California on your list? He is most likely the physicist who bragged to me* about his acquaintance with Reis in Paris approximately two and a half years ago. This man supposedly doesn't have an actual position at the institute, but is very wealthy and works in Reis' laboratory with his own resources.

Should we have lunch sometime soon?

Kind regards,

Max
